

Product Information Sheet

Robot Programming Device

This robot combines hardware with software... and teaches coding to all. It is equipped with an impressive blend of character and technology.

It allows students to create dot matrix animations, design games and realise AI and IoT applications.

Equipped with the following electronic modules:

- IR Transmitter/Receiver
- Gear Knob
- LED Display
- 6-axis Gyroscope
- RGB LED Indicator
- Voice sensor
- Light sensor
- Buttons
- Color Infrared Sensor

Typical projects:

- Robots Challenge
- Controlling Robots Challenge
- Programming Robots Challenge

Items Included:

- Robot programming device (x1)
- USB charging cable

Order Code: 506-06

P9338-A
