

Bourdon Tube Pressure Gauge Cutaway

Model: 273-230

DAC Worldwide's Bourdon Tube Pressure Gauge Cutaway (273-230) is a professionally-crafted, sectioned, industrial-quality pressure gauge that supports training relating to pressure measurement and gauge calibration in related process training applications. Bourdon tube-type pressure gauges are used widely within industrial liquid and gas processes to monitor system pressures.

Commonly-encountered, large, high-quality gauges from well-known US manufacturers are chosen for industrial training relevancy and maximum visibility.

A strategically-selected viewing area is cut away, providing full view of the primary rotary geared movement and the fabricated Bourdon tube.

FEATURES & SPECIFICATIONS

- Sectioning of an actual industrial-grade 4.5"-diameter, 1/4" NPT pressure gauge (commonly-encountered brands and models are chosen for industrial relevance).
- Carefully-considered, offset 90-degree cutaway, unveiling full internal mechanism and enclosure features.
- 14-gauge, formed-steel, powder-coated mounting stand with formed-steel component attachment brackets.
- Provision for mounting on related DAC Worldwide bench, workstation, display, and storage products.
- Packaging for shipment via parcel service or courier service.

PRODUCT DIMENSIONS

- **Product Dimensions**

(L x W x H)

9" x 9" x 9" (230 x 230 x 230 mm)

9 lbs. (4 kg).

- **Shipping Dimensions**

(L x W x H)

12" x 12" x 12" (305 x 305 x 305 mm)

12 lbs. (5.5 kg)

OPTIONS

- Recommended #902V - Mobile Display Stand
