

Drum Gate Valve Cutaway

Model: 273-500

DAC Worldwide's Drum Gate Valve Cutaway (273-500) is a detailed drum gate valve cutaway that depicts a common tank, drum or barrel valve used to dispense viscous liquids, such as heavy oils, molasses and similar substances.

This specialized faucet-type valve is commonly found in manufacturing facilities, petro-chemical plants, refineries, and other similar industrial, commercial, and agricultural applications.

The cutaway includes a formed-steel mounting assembly, allowing for stand-alone display, bench-top mounting, or mounting on specialized DAC Worldwide mounting benches and support structures.

Through careful sectioning, the complete internal configuration of the valve can be seen, while also allowing for disassembly for more complete inspection. All primary features have been retained.

FEATURES & SPECIFICATIONS

- Sectioning of actual industrial steel component (common industrial component brands and models chosen for industrial relevancy).
- Cleaning, priming, and painting of all primary component parts using a high-durability urethane finish.
- 14-gauge, formed-steel, powder-coated mounting stand with component attachment brackets and iron pipe mounting spool/nipple.
- Provision for mounting on related DAC Worldwide bench, workstation, and storage products.
- Instructor resource with background information on a drum gate valves.
- Packaging for shipment via parcel service or motor freight.

PRODUCT DIMENSIONS

- **Product Dimensions**
(L x W x H)

12 1/4in. x 8 1/2in. x 8 1/2in. (311 x 216 x 216 mm)
12 lbs. (5.4 kg)

- **Shipping Dimensions**

(L x W x H)

16in. x 12in. x 12in. (406 x 304 x 304 mm)

15 lbs. (6.8 kg)

OPTIONS

- Recommended #902V Mobile Display Stand
