

Magnetic Drive Centrifugal Pump Dissectible (Goulds/IR/Durco/Flowserve)

Model: 275-150

DAC Worldwide's Magnetic Drive Centrifugal Pump Dissectible (Goulds/IR/Durco/Flowserve) (275-150) is an actual industrial pump for use in classroom and laboratory training relating to process pumps.

This dissectible has been restored, repainted, and mounted on a modular steel baseplate. It can also be mounted on related DAC Worldwide bench, workstation, and storage products.

All features have been retained and replacement hardware provided where necessary. For example, the dissectible features a wet leg demonstration tube fabricated from clear PVC pipe and a 1/4 HP centrifugal pump with inlet strainer. It also comes with an applicable installation and maintenance manual from the original manufacturer.

FEATURES & SPECIFICATIONS

- 7-gauge, formed-steel baseplate with provision for bench-top, workstation, and storage rack mounting.
- Restoration of actual industrial magnetic drive centrifugal pump (manufacturers such as Goulds, IR, Durco, and Flowserve are chosen for industrial relevance).
- Painting, where necessary, using a high-durability urethane coating.
- Replacement hardware, where necessary.
- Wet leg demonstration tube fabricated from clear PVC pipe.
- Centrifugal pump, 1/4 HP, with inlet strainer.
- Applicable installation and maintenance manual from original manufacturer.
- Crating for shipment via common carrier.

PRODUCT DIMENSIONS

- **Product Dimensions**

(L x W x H)
Approx. 30in. x 13in. x 18in. (750 x 325 x 450 mm)
100-350lbs. (45-159kg)

- **Shipping Dimensions**
Varies

OPTIONS

- Recommended #902F - Electromechanical Workstation
