

Extended Saunders Diaphragm Valve Cutaway

Model: 264E

DAC Worldwide's Extended Saunders Diaphragm Valve Cutaway (264E) is a large, realistic valve sample that allows for convenient classroom training in the operation, construction, and maintenance of an industrial diaphragm valve, sometimes referred to as a Saunders valve. Approximately 4"-6" examples of common valve makes and models from US manufacturers are chosen for industrial training relevancy.

Through carefully-planned sectioning and color-coding, the complete internal configuration of the valve is exposed and showcased. Seal features and hardware locations have been retained, allowing for "hands-on" training in Saunders diaphragm valve maintenance.

The cutaway is mounted on a welded, formed-steel mounting stand with provision for tabletop mounting. It can also be mounted on related DAC Worldwide bench, workstation, and storage rack products.

FEATURES & SPECIFICATIONS

- Sectioning of actual hardware (4"-6" examples of common valve makes and models from US manufacturers are chosen for industrial relevancy).
- Cleaning, priming, and painting using a high-durability, urethane coating.
- Color-coding of valve body, internal process surfaces, seat, and closure device using contrast colors.
- Replacement plated hardware where necessary.
- All gaskets, seals, and seats shown.
- Welded, formed-steel mounting stand with provision for tabletop mounting or mounting on related DAC Worldwide bench, workstation, and storage rack products.
- Crating for shipment via motor freight.

PRODUCT DIMENSIONS

- **Product Dimensions**

(L x W X H)
6in x 12in x 13in (152 x 305 x 330 mm)
35 lbs. (16 kg)

- **Shipping Dimensions**

(L x W X H)
15in x 15in x 24in (381 x 381 x 610 mm)
50 lbs. (23 kg)

OPTIONS

- Recommended #902V Mobile Display Stand
- #530-000 - IPT Pipe Trades Training Manual
- #530-001 - IPT Pipe Trades Handbook
- #532-002 - The Valve Primer
- #902F - Electromechanical Workstation
- #920F - Display/Support Assembly
