

# Downsized Flush Bottom Tank Valve Cutaway

Model: 265D

DAC Worldwide's Downsized Flush Bottom Tank Valve Cutaway (265D) is an economical, professionally-crafted, sectioned valve sample that allows for convenient classroom training in the operation, construction, and maintenance of an industrial flush bottom tank valve.

Through carefully-planned sectioning and color-coding, the complete internal configuration of the valve is exposed and showcased. Seal features and hardware locations have been retained, allowing for "hands-on" training in maintenance.

The cutaway is mounted on a formed-steel, 13-gauge mounting stand and pipe mounting stanchion with provision for tabletop mounting. It can also be mounted on related DAC Worldwide bench, workstation, and storage rack products.

---

## **FEATURES & SPECIFICATIONS**

- Sectioning of actual hardware (common valve makes and models by well-known US manufacturers are chosen for industrial training relevancy).
- Cleaning, priming, and painting using a high-durability, urethane coating.
- Color-coding of valve body, internal surfaces, seat, and closure devices using contrast colors.
- Replacement plated hardware where necessary.
- All gaskets, o-rings, seals, and seats shown.
- Formed-steel, 13-gauge mounting stand and pipe mounting stanchion with provision for tabletop mounting.
- Provision for mounting on related DAC Worldwide bench, workstation, and storage rack products.
- Packaging for shipment via courier or mail service.

## **PRODUCT DIMENSIONS**

- **Product Dimensions**

(L x W x H)

8.5" x 10" x 12" (215 x 255 x 305 mm)

18 lbs. (8.2 kg)

- **Shipping Dimensions**

(L x W x H)

12" x 12" x 20" (305 x 305 x 505 mm)

20 lbs. (9 kg)

## **OPTIONS**

- Recommended #902V Mobile Display Stand
- #530-000 - IPT Pipe Trades Training Manual
- #530-001 - IPT Pipe Trades Handbook
- #920F - Display/Support Assembly
