

Valve Cutaway Assortment

Model: 270

DAC Worldwide's Valve Cutaway Assortment (270) is a six-piece assortment of re-manufactured and cut away industrial valves allowing for classroom training in the operation, construction, and maintenance of common valves found in industry.

Each valve includes carefully planned sectioning and color coding, allowing the complete internal configuration of the valves to be exposed and showcased. Seats and closure devices are color-coded. Seal features and primary hardware locations are retained, allowing for hands-on training in maintenance. Each valve is provided on a welded steel support stand, allowing for convenient classroom use.

FEATURES & SPECIFICATIONS

- Sectioning of actual industrial hardware (common valve makes and models chosen).
- Cleaning, priming, and painting using a high-durability urethane coating.
- Color coding of valve body, internal surfaces, seat, and closure devices using contrasting colors.
- Replacement, plated hardware throughout.
- All gaskets, seals, and seats shown.
- Welded, formed-steel, mounting stands with provision for tabletop mounting.
- Provision for mounting on related bench, workstation and storage rack products.
- Includes:
 - #251 Gate Valve Cutaway
 - #252 Globe Valve Cutaway
 - #253 Ball Valve Cutaway
 - #254 Butterfly Valve Cutaway
 - #255 Control Valve Cutaway
