

# Screw Pump Dissectible (Imo)

Model: 275-190

DAC Worldwide's Screw Pump Dissectible (Imo) (275-190) is one of a limited group of enhanced dissectible products. This re-manufactured, realistic dissectible industrial pump can be used in classroom and laboratory training relating to the repair and overhaul of specialized process pumps.

This dissectible has been restored, repainted, and mounted on an expanded modular steel baseplate. It can also be mounted on related DAC Worldwide bench, workstation, and storage rack products.

All features have been retained and replacement hardware provided where necessary.

---

## **FEATURES & SPECIFICATIONS**

- One of a limited series of enhanced pump, valve, and gear reducer dissectibles.
- Expanded, 7-gauge, formed-steel baseplate with provision for mounting on related DAC bench, workstation, and storage rack products.
- Restoration of an actual industrial pump (well-known models and brands are chosen for industrial training relevance).
- Painting, where necessary, using a high-durability urethane coating in a scratch and smudge-resistant color.
- Replacement hardware, where necessary.
- Magnetically-mounted parts organizing system with formed-steel parts tray with protective liners.
- Applicable installation and maintenance manual from original manufacturer.
- Crating for shipment via common carrier.
