

Submersible Vertical Turbine Pump Dissectible (Goulds/IR/Durco/Aurora)

Model: 275-120

DAC Worldwide's Submersible Vertical Turbine Pump Dissectible (Goulds/IR/Durco/Aurora) (275-120) is an actual industrial pump for use in classroom and laboratory training relating to process pumps. The dissectible features a carefully-sectioned industrial vertical submersible pump from manufacturers like Goulds, IR, Durco, and Aurora for industrial training relevance.

This dissectible has been restored, repainted, and mounted on a 7-gauge, formed-steel baseplate. It can also be mounted on related DAC Worldwide bench, workstation, and storage products. All features have been retained and replacement hardware provided where necessary.

FEATURES & SPECIFICATIONS

- 7-gauge, formed-steel baseplate with provision for bench-top, workstation, and storage rack mounting.
- Sectioning of an actual vertical submersible pump (manufacturers such as Goulds, IR, Durco, and Aurora are chosen for industrial relevance).
- Painting, where necessary, using a high-durability urethane coating.
- Replacement hardware, where necessary.
- Applicable installation and maintenance manual from original manufacturer.
- Crating for shipment via common carrier.
