

Circuit Breaker Cutaway Set

Model: 273-906

DAC Worldwide's Circuit Breaker Cutaway Set (273-906) is a detailed, sectioned, professionally-crafted set of two circuit breaker cutaways that unveils the internal construction and operating mechanism of commonly-encountered single-pole and three-pole circuit breakers found within industrial and commercial electrical systems for circuit protection.

Found in all single-phase and three-phase industrial, commercial, and residential systems, these indispensable electrical safety-related components are regularly encountered, although their internal design is often difficult to visualize.

The cutaway set includes a formed-steel mounting assembly, allowing for stand-alone display, bench-top mounting, or mounting on specialized DAC Worldwide mounting benches and support structures.

Through careful sectioning and the addition of a clear acrylic side covers, the complete internal configuration of the devices can be seen, while also allowing for removal for disassembly and more complete inspection. All primary features have been retained and showcased.

FEATURES & SPECIFICATIONS

- Sectioning of actual industrial breaker components (common US industrial component brands and models are chosen for industrial training relevance).
- Restoration and cleaning of all primary component parts where necessary.
- Full side sectioning of both breakers unveiling full internal working mechanisms and operating principles.
- Replacement clear acrylic side covers.
- 14-gauge, formed-steel, powder-coated mounting baseplate/stand with mounting DIN rail.
- Provision for mounting on related DAC Worldwide bench, workstation, and storage products.
- Packaging for shipment via parcel service or mail service.

PRODUCT DIMENSIONS

- **Product Dimensions**

(L x W x H)

9" x 9" x 9" (230 x 230 x 230 mm)

5 lbs. (2.27 kg)

- **Shipping Dimensions**

(L x W x H)

12" x 12" x 12" (305 x 305 x 305 mm)

5.5 lbs. (2.5 kg)

OPTIONS

- Recommended #902V Mobile Display Stand
- #920F - Display/Support Assembly
