

Product Information Sheet

Forces Kit

Our range of science experiment kits will equip you with all you need to carry out each of the practical experiments included in your LJ Create science program.

The kits can be used for teacher demonstration, individual student, or group activities.

Each of the experimental kits are provided in a labelled storage box to allow for easy identification and selection during classroom activities.

Our range of science kits are also supplied with an inventory reference sheet to provide simple resource management and replenishment of any consumable items.

A range of items are supplied in order to carry out the scientific hands-on learning tasks, each item is conveniently contained within a durable vacuum formed box insert.

The Forces Kit comprises a range of experimental resources to investigate the physical forces that act upon all objects. The hands-on kit will introduce concepts of pushing and pulling forces, as well as the ways in which they can be measured.

Typical Practical Tasks Include:

- Forces at a Distance
- Effects of Force
- Forces and Motion

Items Included:

- Retort Stand Assembly
- Boss and Clamp
- G-Clamp

- 2 Spring Scales
- Force Spring Set
- Static Forces Materials
- Been Bag Weights
- Compass
- Storage Box
- Inventory Sheet

Other Items Required:

- LJ Create Science Content and Computer
- Some activities require Apparatus Kit 500-01 or 501-01

General Information:

Packed Volume: Approx. 0.001 m³

Packed Weight: Approx. 5 kg

Order Code: 500-18

P8577-A
