

Product Information Sheet

Handheld Microscope Kit

Our range of science experiment kits will equip you with all you need to carry out each of the practical experiments included in your LJ Create science program.

The kits can be used for teacher demonstration, individual student, or group activities.

Each of the experimental kits are provided in a labelled storage box to allow for easy identification and selection during classroom activities.

Our range of science kits are also supplied with an inventory reference sheet to provide simple resource management and replenishment of any consumable items.

A range of items are supplied in order to carry out the scientific hands-on learning tasks, each item is conveniently contained within a durable vacuum formed box insert.

The Handheld Microscope Kit is used to aid the exploration of key science topics. The associated tasks include investigating surfaces of materials, composition of soil, and scientific methods.

Typical Practical Tasks Include:

- Analyze and Interpret Information

Typical practical tasks when used in conjunction with other kits include:

- Rough and Smooth
- Soil
- Origin of Soil
- Rock Formation

Items Included:

- USB Handheld Microscope
- Microscope Software CDROM
- Set of Plant, Insect and Animal Slides

Other Items Required:

- LJ Create Science Content and Computer
